## Supervised Clinical Experience

Provide the following information about supervised clinical experience in 2019-20. ([§205\(a\)\(1\)\(C\)\(iii\)](#), [§205\(a\)\(1\)\(C\)\(iv\)](#))

Are there programs with student teaching models?

14

**Please provide any additional information about or descriptions of the supervised clinical experiences:**

All candidates complete a minimum of 15 weeks of full-time internships in two settings (7-8 weeks at each school). Supervisors complete a minimum of four observations of each student teacher. University supervisors conduct an individual orientation with the mentor on the expectations that we have for both the student teacher and the mentor teacher. We provide a student teaching handbook and all evaluation documents on a flash drive that is provided to the mentor teacher. We conduct an orientation session on campus for all supervisors and student teachers prior to the start of the semester. Each student teacher meets for an evaluation conference two times per semester with their cooperating teacher and university supervisor.

# Enrollment and Program Completers

THIS PAGE INCLUDES:

>> [Enrollment and Program Completers](#)

In each of the following categories, provide the total number of individuals enrolled in teacher preparation programs for an initial teaching credential and the subset of individuals enrolled who also completed the program during the academic year.

**(§205(a)(1)(C)(ii))**

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

## Teachers Prepared

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

## Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2019-20.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

### What are CIP Codes?

No teachers prepared in academic year 2019-20

If your program has no teachers prepared, check the box above and leave the table below blank (or [clear responses already entered](#)).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (<https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55>).

## Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2019-20. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.

# Program Assurances

THIS PAGE INCLUDES:

>> [Program Assurances](#)

Respond to the following assurances. Note: Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances. ([§205\(a\)\(1\)\(A\)\(iii\)](#); [§206\(b\)](#))

## Program Assurances

1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.

- Yes  
 No

2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

- Yes  
 No

3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.

- Yes  
 No  
 Program does not prepare special education teachers

4. Prospective general education teachers are prepared to provide instruction to students with disabilities.

- Yes  
 No

5. Prospective general education teachers are prepared to provide instruction to limited English proficient students.

- Yes  
 No

6. Prospective general education teachers are prepared to provide instruction to students from low-income families.

- Yes  
 No

7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

- Yes  
 No

8. Describe your institution's most successful strategies in meeting the assurances listed above:

All early childhood and elementary candidates are required to successfully complete a course in the instruction of English Language Learners. All candidates in the course work with Hispanic students in a high-poverty urban school. We place ALL candidates in urban schools early in their field experience. They also have opportunities to work in suburban and rural schools if desired. The urban schools we place our candidates in primarily serve students from low SES households and many are Hispanic emerging bilinguals. Methods of working with students in urban schools are stressed throughout the certification program. Many of our graduates choose to take jobs in urban schools and are actively recruited by these urban schools due to their ability to effectively instruct ELL and students from low socioeconomic households.

# Annual Goals: Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

4. Description of strategies used to achieve goal, if applicable:

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

6. Provide any additional comments, exceptions and explanations below:

We have three mathematics education majors who will complete their programs in AY2019-2020. Because of low pay and difficult conditions, our state has a shortage of fully prepared teachers who are willing to work in our schools. The state allows for alternative certification for those with a bachelor's degree with a major in a certification area. These people may begin teaching before even beginning to meet the requirements that university/comprehensively prepared teachers must meet before teaching. Additionally, our state has allowed an expansion of emergency certification for those with a bachelor's degree in any major. These people begin in classrooms without even certification area content knowledge. These alternative pathways to certification have led to over 3000 alternative and emergency certified people in our classrooms, many of them in science and

mathematics. When we approach university majors in those fields about our teacher education program, they will often reply, "Oh, I think I'll just go alt. or emergency cert."

Face-to-face events will likely improve the opportunity to recruit new candidates. However, until COVID restrictions are lifted, this will be difficult to carry out.

- Yes  
 No

**10. Describe your goal.**

Once COVID restrictions are lifted, our Teacher Education faculty will conduct face-to-face recruitment events both on campus in the Science Department and off-campus with our partner schools, Oklahoma City Community College and Rose State College.

## Annual Goals: Special Education

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

## Assessment Pass Rates

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period.  [\(§205\(a\)\(1\)\(B\)\)](#)

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact Westat's Title II Support Center and your testing company representative.

## Use of Technology

1. Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. ([§205\(a\)\(1\)\(F\)](#))

Does your program prepare teachers to:

- a. integrate technology effectively into curricula and instruction

Yes  
 No

- b. use technology effectively to collect data to improve teaching and learning

Yes  
 No

- c. use technology effectively to manage data to improve teaching and learning

Yes  
 No

- d. use technology effectively to analyze data to improve teaching and learning

Yes  
 No

2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

The Teacher Education Program has a dedicated Smart classroom that contains a SmartBoard, responders, tablets, and document cameras. We also have sets of iPads and programmable robots. All education courses are held in this classroom. This year we have added updated software, purchased apps for use in our courses. Candidates begin to work with the integration of technology to effectively instruct all learners in early professional education coursework. The focus of the use of technology varies according to the central purpose of the course. For example, candidates in Human Development learn to adapt instruction based on the cognitive, physical, and social development levels of learners. In Psychology and Assessments of learning, the focus shifts to the design of appropriate instruction to meet the needs of different types of learners by orienting the candidates to the concept of Universal Design for learning. In Students with Exceptionalities, the candidates learn to integrate technology to effectively instruct students with identified special learning needs. In the various methods courses, technology is matched to learner objectives in content areas. The unit also requires the Technology in the Classroom course for all education majors except those in music education programs. The School of Music integrates the use of technology for teaching and learning in multiple courses. Curriculum methods courses require plans that implement the principles of universal design for learning. The culminating activity for all candidates is the Teacher Work Sample. In this project, the candidates gather contextual information on the community, school, and classroom. The note the demographics and learning level of knowledge for each student related to an identified unit. Instruction is then designed to meet the specific needs of all learners. A post-assessment that is identical to the pre-assessment is given at the end of instruction.

Candidates create tables using appropriate technology to evaluate the learning gains of each student as well as the class as the whole. They then analyze and reflect on the effectiveness of their instruction.

# Teacher Training

Provide the following information about your teacher preparation program.

**(§205(a)(1)(G))**

## Teacher Training

### 1. Provide a description of the activities that prepare general education teachers to:

#### a. Teach students with disabilities effectively

In our Students with Exceptionalities course, candidates complete a 15-hour field experience in a special education classroom or school for children with disabilities. They complete a notebook of accommodations for a variety of learner needs. In our Human Development course, candidates learn about behavior and cognition that falls within and outside the normal range. All program candidates are required to take both courses listed above.

#### b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

Our candidates are encouraged to participate in IEP and IFSP meetings prior to and during student teaching with their mentor teacher and student's family approval.

#### c. Effectively teach students who are limited English proficient.

In our English Language Learner course, strategies are explored in class and implemented during a 15-hour field experience. Candidates compile a resource notebook with research-based strategies and provide one-to-one tutoring for an EL student.

### 2. Does your program prepare special education teachers?

 Yes

 No

If yes, provide a description of the activities that prepare *special education teachers* to:

#### a. Teach students with disabilities effectively

#### b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

#### c. Effectively teach students who are limited English proficient.

## Contextual Information

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card (see below). The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

The Teacher Education Program (TEP) at Oklahoma City University received national accreditation for the first time from the National Council for Accreditation of Teacher Education (NCATE), now Council for the Accreditation of Educator Preparation (CAEP) in November 2012 and again in November of 2019. We also received initial state accreditation in 2004 from the Oklahoma Commission for Teacher Preparation, now called the Oklahoma Office for Educational Quality and Accreditation, and our accreditation was continued at our last visit in fall 2019. In order to address the severe shortage of teachers in our area, we have developed a partnership with Oklahoma City Community College (OCCC) and Rose State College (RSC). This "OCU Teaching Scholars" program provides OCCC and RSC students who graduate with an associate's degree and a minimum 3.0 GPA to earn scholarships that make the price of our tuition and fees similar to the public universities in our area. The program began in the fall of 2017. We also participate in a Teacher Academy at a nearby high school with one faculty member serving on the board and faculty along with our students attending recruitment events there.
